

Company

REQUIEM® EC
EPA Reg. No. 69592-25

SUPPLEMENTAL LABELING

For Use on Cotton in the State of California

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.
- This labeling, which includes uses and revised application instructions not previously printed on the container label, must be in the possession of the user at the time of pesticide application.
- Read the label affixed to the REQUIEM EC container before applying.
- Use of REQUIEM EC according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the REQUIEM EC container.
- For the specified crops, this labeling supersedes the container label bearing AgraQuest's label code number AQ7780-001. This supplemental label may be used only in the State of California.
- Refer to the container label for information regarding integrated pest management, use rate determination, pre-harvest interval, mixing and application, storage and disposal, and conditions for sale and warranty.

Cotton: cultivars, varieties, and/or hybrids for oil and/or fiber production.

Pests and Application Rates:

Pests	REQUIEM EC (qts/acre)	Remarks
Mites: • Two-spotted spider mite	0.5 – 1.0	Begin applications when thresholds have been reached. The rate of REQUIEM EC will depend on plant size and pest pressure. Use a lower rate for light infestations and/or small plant canopy and a higher rate for heavy infestations and/or large plant canopy. Adjust equipment, spray pressure, and spray volumes to ensure thorough coverage.
