SERENADE® MAX – Proven Gummy Stem Blight Control on Cucurbits

SERENADE® is proven effective for battling gummy stem blight on cucurbits. Derived from *Bacillus subtilis* and powered by biochemicals called lipopeptides, SERENADE has a complex, multi-site mode of action which destroys disease pathogens while also managing resistance.

Add SERENADE to your disease program for broad spectrum disease control, superior food and worker safety, and improved overall performance. Protect your crop with the proven power of biochemistry. SERENADE - some things just work.
