SONATA® – Proven Control of Powdery Mildew in Strawberries

SONATA® delivers long-lasting powdery mildew control with the added value of resistance management. By disrupting pathogen cell wall formation with a novel mode of action, the biochemical active ingredient in SONATA – derived from *Bacillus pumilus* – provides effective

control while extending the life of your chemical program. Unsurpassed in worker and food safety, SONATA offers a 4-hour Restricted Entry Interval and is exempt from residue tolerances. Add SONATA to your program today and see what a difference biochemistry makes.
